Little Bit & Big Byte are back!

Little Bit & Big Byte are back for another fun adventure in the sequel to the popular Day at the Beach. It's "Save the Environment" Week at school and the adorable "Chips off the old block" are excited to do their part to help conserve energy and recycle.
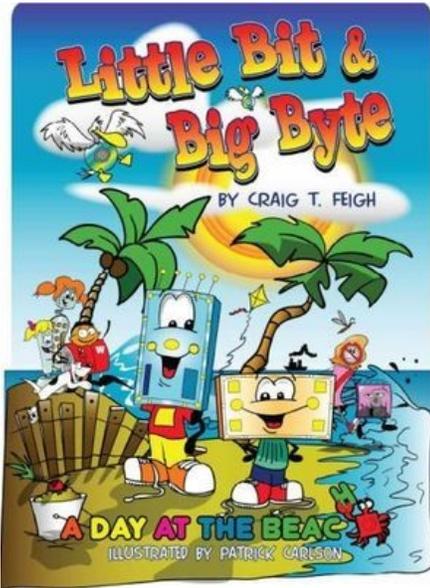

Little Bit shares how we can all save water by brushing efficiently. Joy (the sister) sleeps more soundly with a night light. Big Byte has a tendency to use ALL of his electronics at the same time and realizes how effective "unplugging" can be. Even the Dad (CD) can do his part to ease traffic congestion by taking public transportation to work. While taking their recycling to the curb, their long-time enemies (Vi and Russ) kick over the recycling bins and spew garbage all over the street. In addition their pesky pointer (Click) jumps into the Recycle Truck and gets whisked away to the Recycling Center. Little Bit & Big Byte rush to save the day for their beloved canine. They also learn the complexities and necessity of recycling our paper, plastic and aluminum cans. Enjoy the colorful illustrations and be amused by finding the "hidden object" in each picture. Smile at the "story within a story" as the lovable caterpillar steals each scene with his youthful antics. Learn a valuable life lesson as Author, Craig Feigh, perfectly illustrates the need for all of us to "Go Green."
